Moving pastoral care to a virtual world is tricky! [Please share this resource](#) with pastors who need support with setting up a Whatsapp group.

### ➔ LEANs

#### **Join our weekly info session**

How can my church get involved in the project? How could we better serve those in need at this time? What more could we be doing to respond? We'd love to invite you to our weekly Zoom session where we look at the idea of a LEAN and the way that churches in a local area can get involved in this broader project. LEANs are popping up around the country and they're doing some amazing and innovative things.

Come and hear more, ask some questions and share your ideas. **Register your LEAN** by sending the word "register" to this number 0871531011. This will allow us to connect with all LEANs across the province and country.

### ➔ RELIEF

#### **Hope Vouchers**

Have been launched! Please help us raise awareness and raise the R14 million we need to support vulnerable households in all 11 of our provincial Districts. [Pop onto our website](#) for more information.
